Meets OSHA standards

The MVB series Direct Drive fans are intended for light duty commercial use where an economical solution is needed. Applications where sound levels are less of a priority like garages and agricultural facilities are well suited for direct drive fans.

The easy to roll tilt cart is powder-paint coated for durability and made of 1” diameter heavy gauge steel tubing reinforced with welded cross braces creating a stable platform. This allows the fan to be tilted at any angle to direct the airflow where needed without tipping over.
