**WARNING**

**Read Carefully** - These instructions are intended to supplement and be used in conjunction with the instructions provided with the heater. Failure to adhere to the instructions could result in in death, serious personal injury, fire, or permanent damage to heater.

To prevent a possible electric shock, always disconnect power to heater at main service panel, breaker, or fuse box before attempting to install or service the heater, or install these accessories.

**SAVE THESE INSTRUCTIONS**

### Wire Guard Installation Instructions

1. Remove both wiring compartment covers by removing the four(4) screws that hold them in place.

2. If not previously done, install the heater element according to the heater installation instructions.

3. Install the wire guard by positioning it over the reflector and centering it lengthwise.
   3.1. Starting from either end, insert the first extended cross wire between the reflector and the heater lip.
   3.2. Insert second cross wire (on the opposite side) under the heater lip by flexing the wire guard. Care should be taken to prevent scratching the reflector or enclosure.
   3.3. Continue this process with the remaining extended wires.

4. Replace the wiring compartment covers and reinstall the four (4) screws that were removed in step 1.
