Digital Non-Programmable Thermostat

Tempra-Sure®

MODEL TH36004 SERIES

The TH36004 Series delivers the features that matter most in a non-programmable thermostat: an easy-to-read backlit display, slim contemporary design and precise temperature control

APPLICATION

Tempra-Sure® digital non-programmable electronic thermostats can be used to control electric baseboards and convective / radiant heaters. 100% silent operation is ideal even for bedrooms. Unsurpassed temperature contol eliminates temperature swings which means you are comfortable at lower setpoint. Comfort at a lower setpoint saves money on heating bills.

FEATURES

- Advanced temperature control assures total comfort by minimizing temperature swings
- ON/STANDBY switch enables thermostat shutdown at end of heating season for added security
- On-screen heating power indicator gives at-a-glance verification of power being used
- Backlit display
- Battery free
- 15 Amp resistive load
- Can be used to control baseboard, convectors and fan-forced heaters
